

AMCAT

Employability Report

for Praveen Bajpai

Assessment Date : 12 September 2017

A personalized guide to know your AMCAT employability scores,
job fit in various roles and get tips to improve employability.

*Certificate
presented to*

Praveen Bajpai with AMCAT ID:30008042143355
for successfully completing AMCAT on 12 September 2017

According to his/her AMCAT scores, Praveen Bajpai is employable for the following job profiles/sectors and is strongly recommended to be considered for job opportunities in these profiles/sectors:

IT Industry

Associate (ITeS and Business Process Outsourcing)

Business Functions

Customer Service Executive

To authenticate this certificate and to access detailed scores of the candidate, please visit www.myamcat.com/talentsearch/

1. This is a computer generated certificate and does not require a signature. 2. You can quote the statements mentioned on this certificate on your resume or other public documents. The ideal way to quote is "According to my AMCAT score, I am employable for the following profiles: Associate (ITeS and Business Process Outsourcing), Customer Service Executive.

Content

- 1 READING YOUR REPORT 
- 2 YOUR AMCAT SCORES 
- 3 MODULE FEEDBACK 
- 4 YOUR PERSONALITY 
- 5 YOUR INDUSTRY AND JOB FIT 
- 6 IMPROVE YOUR EMPLOYABILITY 
- 7 NEXT STEP 

Chapter I. READING YOUR REPORT

You must be having a lot of questions about your skills, personality and employability. **AMCAT Employability Report** will not only help answer these questions, but will become your guide for deciding next steps on your career path. It will tell you what to study, what interviews to prepare for and how to prepare. Refer to the following tips to understand how to make this report a means to get closer to your dream job.

- ❖ Start by referring to the '**YOUR AMCAT SCORE SUMMARY**' chapter of your report. This chapter has all the key highlights for you. You will get to know where you stand nationally in different AMCAT modules, a snapshot of your personality and your employability in different job profiles and sectors. The summary chapter is the key. You should understand everything in it to know where you stand in the job market. For each section in the summary chapter, we mention the chapter having additional information about the section. Wherever you are unable to understand or want more information, refer to the respective chapter.
- ❖ The chapter '**Your Profile and Industry Fit**' is very important. The following tips will help you use it to make an action plan for next few months:
 - a. For profiles where your employability is high, you should start refreshing your knowledge for an interview for them. You may soon get interview calls for these.
 - b. You might find certain profiles where you have high employability, but are not the ones that interest you or you know much about. We will seriously recommend that you explore more about these profiles, find information about them and re-evaluate your interest. These can provide you an interesting career path which you may not have considered till now.
 - c. For those profiles where your employability is medium/low but interest you, understand your skill gap and start studying to improve on these areas. You may get an interview call for some of these, but you will have to work really hard to clear the interview. To increase your chances to get interview calls in such profiles, you should improve on your skills and re-take AMCAT after three months. The modules you should concentrate on for a profile is mentioned in the **chapter V**. A better AMCAT score can improve your interview chance in these profiles.
- ❖ Finally, this report can guide you on how to improve your weak areas. Refer to **Chapter III** to know within each module, which sub-modules you need to particularly improve. Work on these. Refer to **Chapter VI** to not only get helpful references to improve your weak areas, but also get a time schedule you can use.

Your Action Plan

INTEREST		
Employability	HIGH	
	MEDIUM/LOW	
	HIGH	Prepare for interviews for these profiles. Check out references from Chapter VI.
	MEDIUM/LOW	Gather more information about profiles and re-evaluate your interest. If you find that they may interest you, start preparing for their interviews.
	Low priority at this point.	

We hope you will immediately start working on this action plan to succeed in interviews and position yourself to get interview calls for your profiles of interest. Best of luck!

Chapter II. YOUR AMCAT SCORES

Praveen Bajpai

AMCAT ID : 30008042143355

Your AMCAT Score

- AMCAT an intelligent adaptive test. Your AMCAT score is not equal to the number of questions answered correctly. The score is calculated by an advanced statistical engine, which takes into consideration questions difficulty, discrimination, guess probability and several other factors.
- The bar is a representation of your performance in the module. The tick in each bar represents the 50 percentile score of all candidates of your category.
- Score of one module should not be compared with the score of another, but should be compared against the 50 percentile point of that module.
- Your score is on a scale of 100 to 900 with 100 being the minimum and 900 maximum

Your Personality Scores

- **Extraversion (E)** An extroverted, talkative, socially confident person
- **Conscientiousness (C)** An organized, responsible, hardworking & achievement oriented person
- **Emotional Stability (ES)** A calm, happy, undisturbed & confident person
- **Openness To experience (O)** A broad-minded, unconventional, imaginative person with rich artistic sensitivity
- **Agreeableness (A)** A kind, sympathetic, cooperative & warm person
- **Polychronicity (P)** A multitasker

Your Job Fit

Chapter III. MODULE FEEDBACK

This Chapter provides a detailed feedback about your performance in each AMCAT module. It shall provide your AMCAT score and more importantly your AMCAT percentile, which shall tell you where you stand in the modules across all job-seekers across the Nation with similar education.

Furthermore, the chapter goes into details of which sub-module within a module did you perform well in and where you lacked. It will suggest where to put more effort and also provide tips on what kind of effort you should put in.

SECTION I: YOUR AMCAT REPORT CARD

Module	Score	Grade	National Percentile	College Percentile
English Comprehension	405	C	24.2%	60.9%
Quantitative Ability (Advanced)	385	C	16.9%	58.6%
Logical Ability	565	A	83.9%	96.9%
Computer Programming	505	A	81.7%	91.5%
Motivation Evaluation Test	100	A	100%	25.6%
Computer Science	438	A	67.9%	79.8%

- College percentile is your percentile amongst all the students in your college who took AMCAT
- Overall percentile is your percentile amongst all the candidates (belonging to the same degree as yours) tested by us nationally till now. If your overall percentile for a module is NA, it means we do not calculate percentile for that module
- If your reported score is -1, it means you have attempted less than the minimum number of questions required in that section. In such a case no score is reported. A score of -2 means you did not attempt the module. NA: Not Available
- Grade Information: grade tells you where you stand amongst all the people who have taken AMCAT till now.
A: First 33% B: Second 33% C: Last 34%

SECTION II: YOUR PERFORMANCE CHAKRA

Our Performance Chakra provides you with a bird's-eye view of your performance in different sections of modules you have attempted. The three levels indicate your performance as poor, average or good.

Performance Chakra: You have done really well in sub-modules marked in green, average in those in yellow and poorly in those in pink. If a section is without a color, it means you did not answer enough questions in the subsection to get an evaluation in it.

SECTION III: YOUR PERSONALIZED FEEDBACK

This section provides you a personalized feedback automatically generated by our artificial intelligence engine. Based on your strong and weak areas in a module, it provides you with suggestions and tips to improve yourself.

English Comprehension

Your performance in English Comprehension is not satisfactory. According to our analysis, you have done a good job in learning new words and expanding your vocabulary. You now need to channelize your efforts to improve your grammar and ability to understand articles in English. Reading not only improves your comprehension skills, but also sharpens your grammar as you get to know proper usage of English. You develop an understanding of structuring the sentences well. Also, try speaking in English more often. Work hard to improve!

Tips / Suggestions for You

- We suggest that you use a dictionary and a thesaurus extensively.
- Read small stories (or articles) and rewrite them in your own words. Get them checked by someone with good English.
- Scribble the key points in the paragraph while you are reading it. This will help you find answers to questions easily.

Quantitative Ability (Advanced)

You need to put a lot of effort to improve your Quantitative Ability (Advanced) skills. You need to start from basics. First try to understand solved examples in books and then solve them yourself. Do not read mathematics; write, solve and practice it. That is the way to learn it. Once you are able to understand solved examples, move on to solving multiple-choice questions. Make sure you re-solve every question which you solve incorrectly in first attempt. Finally, when you succeed in the same, proceed ahead and solve questions under time constraint. Start with basic algebra, concepts of factorization, divisibility; next move on to word problems and finally to advanced concepts such as logarithms, permutation-combination and probability. Good luck!

Tips / Suggestions for You

- Use your tenth standard mathematics books to understand and refresh your basic concepts.
- Always first try to solve the problem yourself. Do not look into the solution directly.
- Learn all the critical definitions, formulae and concepts that appear in common questions.

Logical Ability

Your performance in Logical Ability is very good. You are able to understand statements, draw inferences based on them and are also able to spot patterns. Good job! But you are still not perfect. In order to master this section, practice difficult questions. Though, initially, you may take a lot of time to solve such questions, but in the long run, you would end up sharpening your Logical Ability skills tremendously.

Tips / Suggestions for You

- Abductive reasoning refers to being able to infer a course of action, derive a conclusion, infer underlying assumptions, etc. to a given set of statements. These questions test your ability to take decisions based on information in a real-world scenario. You should read analytical/business magazines and newspapers to improve your abductive reasoning.

Computer Programming

Your performance in Computer Programming is very good. You have fared well in all the 3 sections namely- Basic Programming, Data Structures, OOP and Complexity Theory. You can further sharpen your skills by designing programs for complex problems. Try rewriting existing programs in multiple ways. Also concentrate on theoretical concepts in Computer Science. With practice, we are sure you will achieve mastery in this section. Good luck!

Tips / Suggestions for You

- For object oriented programming, you may choose to study the concepts through the medium of C++. We recommend the book "Object Oriented Programming in C++" by Robert Lafore.

Computer Science

Your performance in Computer Science is very good. You have a basic knowledge of all the 3 sub-modules (Operating System & Computer Architecture, DBMS, Computer Networks). However, you should challenge yourself with more difficult concepts. In Operating System & Computer Architecture, while you know the basic concepts in process synchronization, you should stretch yourself to understand the implementation of different process synchronization techniques. Acquaint yourself with different job scheduling algorithms. Learn concepts like pipelining and memory interfacing to strengthen your concepts in computer architecture. To further improve your performance in DBMS, you need to develop a good understanding of different query languages as well as various normalization forms. You have fared well in Computer Networks. You just need to move on to more complex topics and upgrade your knowledge on them. Learn different routing algorithms and networking addressing. Since you have ground knowledge of basic reference networking models, try and push yourself to understand various network protocols like HTTP, UDP etc.

SECTION IV: YOUR AUTOMATA FEEDBACK

We cannot comment since you have not attempted Automata Modules.

CANNOT COMMENT

Chapter IV. YOUR PERSONALITY

The purpose of this Chapter is to provide you an analysis of your personality and give you an insight in your behavioral aspects. The analysis done is on the basis of your responses to AMPI (Aspiring Minds Personality Inventory). AMPI is a reliable and valid personality test based on global standards.

Different sub-sections of this chapter are especially designed to provide a broad view on numerous aspects related to your personality. This Chapter contains the following main sections:

- Your Personality Score
- Description of your personality
- Your Personality type.

A word of caution: Trait scores of HIGH or LOW may not be equated to being GOOD or BAD. There are no good or bad personalities. Secondly, this test or Chapter does not measure or indicate any psychological disorder or otherwise. Every individual has a unique personality and this report provides an indication of the same. Candidates with different personality combinations do well in handling different kind of situations and perform well in different jobs. There is no absolute metric personality. Lastly, this Chapter is best interpreted by a trained psychologist.

SECTION I: YOUR PERSONALITY SCORES

Your personality assessment shall be provided on the following traits:

These traits are based on the Big Five Model of personality, now globally accepted as the most scientific and validated model of personality.

The table and figure below shows your Z-score and percentile in each trait. Each bar represents your Z-score in a personality trait.

Trait	Region	Percentile	Z-score
Extraversion	Low	30%	-0.53
Conscientiousness	Medium	58%	0.2
Emotional Stability	High	81%	0.88
Openness to Experience	High	81%	0.87
Agreeableness	Medium	38%	-0.3
Polychronicity	Medium	38%	-0.31

Scores and Their Interpretation:

- For each trait, you have been classified as being LOW, MEDIUM or HIGH. It should be noted that this classification is not an absolute one, but a relative one. These classifications are based on our national norms on a sample of entry-level job aspirants. For instance, a person, who is high on Extraversion, is as extraverted as the top 33% people in our norm group. He/she may not still be extraverted enough for a given role or a standard set by another individual.
- A low percentile does not mean bad performance and high percentile does not mean good performance, as there is no concept of performance in personality.
- For each trait, a Z-score is provided. The Z-score measures the number of standard deviations the score is away from mean of norm. A Z-score more than +0.44 means the candidate is in the top 33%, whereas a Z-score of less than -0.44 represents the candidate is in the lowest 33%.
- This report is best interpreted by a psychologist. The candidate is strongly advised not to take any action on the basis of this report without referring to a well-qualified psychologist.

SECTION II: DESCRIPTION OF YOUR PERSONALITY

This section provides you a detailed description of your personality traits.

Extraversion

Your score indicates you are **Low** on Extraversion.

Extraversion is defined as one's inclination towards the outer world. Individuals with high extraversion can be characterized as social, talkative and assertive. They like the company of people and enjoy social gatherings. They need external stimulation and get energized while interacting with people. They have lots of friends and thrive for making new social contacts. They like to work in groups and prefer to lead others.

Your scores suggest that you do not like to interact with too many people and like to keep to yourself. You do not like excitement seeking activities, and stimulations and thrills do not appeal to you. You enjoy spending time with yourself. You prefer to work alone rather than in a group. You think before speaking or acting, and like to keep your ideas to yourself.

Conscientiousness

Your score indicates you are **Medium** on Conscientiousness.

Conscientiousness has been called by some psychologists as the Will to Achieve. It is generally seen to have two components, one of striving for achievement and the other of dependability. The latter is characterized by being

thorough, organized and responsible. The former is related to volitional variables such as hardwork, perseverance and orientation towards achievement.

You are moderately well-organized and dependable. You would generally follow processes and be disciplined towards your goal, but may become carefree of your work and schedules at times.

Emotional Stability

Your score indicates you are **High** on Emotional Stability.

Emotional stability refers to being in a state of psychological steadiness. Emotionally stable people are even tempered and relaxed and they tend to have higher emotional intelligence. On the other hand, people low on emotional stability are likely to experience negative emotions like anxiety, depression, embarrassment and insecurity on small stimuli from the environment. These people have a tendency to exaggerate minor mutations.

You are generally calm and free of worry. You do not get upset or frustrated by the behavior of others and are considered thick-skinned and secure. You rarely feel conscious or embarrassed in situations. You have high satisfaction level and are happy from your life. You have control over your thoughts. You are mentally tough and can handle tough situation easily.

Openness to Experience

Your score indicates you are **High** on Openness to Experience.

Openness to Experience is associated with being broad-minded, unconventional, having a rich artistic sensitivity and being curious and imaginative. This has been a trait hard to identify and has been called as intellect, culture or openness to experience by various psychometricians. Open individuals are creative, willing to challenge authority and entertain new ideas. They have intuitive thinking and can adapt to change easily. They are progressive and prefer to explore new ways and ideas of doing things.

You have a strong aesthetic sense, appreciate beauty and experience varied emotions and feelings. You have broad interests, are keen to try out different things and have a rich imagination. You are highly creative and self-confident, and can visualize things easily.

Agreeableness

Your score indicates you are **Medium** on Agreeableness.

Agreeableness refers to social conformity, friendliness, compliance and altruism. Agreeable people are sympathetic to others, help others and trust others to help them too in return. They are popular amongst their colleagues and do not believe in manipulating people. Agreeable people are good for customer relationship profiles and work well in teams.

You are generally warm and agreeable, but also give as much importance to self-interest as most people do. You understand others needs and want to help people, but not willing to give up yourself for them. At times, you can be stubborn and competitive.

Polychronicity

Your score indicates you are **Medium** on Polychronicity.

The Multi-tasking trait is defined as the extent to which the person prefers to engage in more than one tasks simultaneously and believes that this is a productive work style. Individuals high on this trait shall like to engage in multiple activities at a given time, whereas those low shall prefer to just do one thing at a time. This trait measures the personality disposition of a person to multi-task and does not measure the ability to do so.

You have a medium score on the multi-tasking scale. This shows that you neither have a strong preference nor dislike for performing multiple tasks simultaneously. You are neither very inclined towards doing multiple tasks at the same time, nor do you want to just handle one project at time. Whether or not you will succeed in a polychronous environment depends largely on your ability to do so.

SECTION III: YOUR PERSONALITY TYPE

Based on your personality traits, your personality type is determined as below.

You are a **"Thinker"**

You are very independent, unconventional and original. You have your own ideas and beliefs. You thrive for challenges and love to solve problems. You tend to think logically and look for reasoning behind every decision or solution of a problem. You value knowledge above everything else.

You live in the world of theoretical possibilities and see world as little more than raw material to be reshaped according to your design. You like being the architect of a plan, because of the scheming and thinking involved, far more than being the implementer of that plan.

You are relatively easy-going and amenable to almost anything until your principles are violated, regarding which you may become outspoken and inflexible. You do not like to lead or control people. You prefer to return, however, to a reserved albeit benign ambiance, not wishing to make a spectacle of yourself. You feel shy in front of strangers; while on the other hand, you are self-confident and gregarious in front of known people.

Chapter V. YOUR INDUSTRY AND JOB FIT

This chapter explains your job fit in various profiles in different industry sectors.

AMCAT is today used by leading corporations across the country to look for the right talent. Based on our learning's from working with these corporates, we have developed statistical models of what scores make a candidate succeed in a given job profile. Based on your AMCAT scores and our statistical model, we can predict which job profiles you best fit in. We can also find out the profiles for which you aren't currently ready and what subjects you need to study to become employable in them.

This section shall provide you information about your employability in different job profiles and what all you need to improve to become more job fit. It will also provide a glimpse in the score cut-offs for different profiles.

Section I: YOUR JOB FIT

Job Profile	Your chance of selection for these job profiles.	Job profile criteria and areas to work on for improving your chances
Mainstream Job Opportunities		
Academia	Cannot Comment	Companies hiring for this profile need the candidates to be proficient in the domain in which they want to pursue their career. Along with this candidates need to have average English, Logical and Quant skills. We cannot comment since you have not attempted all the required modules.
IT Industry		
Software Engineer- IT Services	Medium	These companies are basically looking for good English and Logical skills with average Quantitative ability. You have to work hard in Quantitative Ability (Advanced).
Associate (ITeS and Business Process Outsourcing)	High	These companies look for candidates proficient in English with average Logical and Quantitative abilities.
Associate (IT Operations)	Cannot Comment	These companies are basically looking for candidates with good English and average Logical abilities. We cannot comment since you have not attempted all the required modules.
Business Functions		
Sales and Business Development Executive	Medium	These companies look for candidates having command over English with good Logical and Quantitative ability. Extrovert candidates also preferred. A specific type of personality is required for you to be suitable for this job role.
Customer Service Executive	High	These companies look for candidates having decent English skills with average Logical and Quant skills. Candidates having an agreeable attitude are preferred.
Analytics and Communication		
Analyst	Medium	These companies are basically looking for good English and Logical skills with average Quantitative ability. You have to work hard in English Comprehension.

Job Profile	Your chance of selection for these job profiles.	Job profile criteria and areas to work on for improving your chances
Corporate Communications/ Content Developer	Low	This profile requires candidates with excellent command over English and good Reasoning abilities. You have to work hard in English Comprehension.

Section II: SELECTION COMPARATOR

The graphs below show the minimum cut-off in each module every job profile (marked with solid blue lines). It also shows your AMCAT score, which is represented by a dot and connected through dotted lines. You can compare different job profiles cutoffs with your score to get an idea about how well or poorly you do with respect to each module for a given profile.

* For some profiles personality scores have also been considered.

We hope you have read this Chapter seriously and plan to take next steps based on your interest and employability for different job profiles. We recommend the following action plan:

INTEREST			
Employability	HIGH		MEDIUM/LOW
	HIGH	Prepare for interviews for these profiles. Check out references from Chapter VI.	Gather more information about profiles and re-evaluate your interest. If you find that they may interest you, start preparing for their interviews.
		MEDIUM/LOW	Start working to improve on AMCAT modules required for the profile. Re-take AMCAT after three months to improve your chances of interview opportunity.

Work hard and you will soon be able to crack a job in a profile of your interest. The next chapter will provide some tips to you to improve yourself in different modules.

Chapter VI. IMPROVE YOUR EMPLOYABILITY

To be able to improve your employability you need to concentrate on improving your weak areas while maintaining your strengths. This chapter shall guide you to resources and a plan to do this. Based on your weak areas as enumerated in Chapter III and improvement areas for specific job profiles (discussed in Chapter V), you should take next steps to improve your employability. To do this effectively you need to pick the right books/resources/training for each area and spend a balanced amount of time on across subjects.

Our intelligent feedback system, based on your weaknesses and strengths has picked material to refer to and created a study time schedule. Both when used effectively can help you improve your employability substantially.

SECTION I: REFERENCES

Based on your AMCAT report, we have picked authoritative resources to help you improve. The references are custom generated for you according to your performance in AMCAT. These resources are free to access over the internet and should come handy in your endeavor to improve your employability.

Subjects	Books/Links
Grammar	Common Errors in English - http://www.wsu.edu/~brians/errors/ Grammar Games - http://www.manythings.org/e/grammar.html High School English Grammar and Composition by Wren and Martin
Comprehension	The Hindu Newspaper - http://www.thehindu.com/ Speed up your reading comprehension - http://www.aspiringminds.in/referenceLinks.php?file=rsc-tips Reading Comprehension Tips and Techniques - http://www.aspiringminds.in/referenceLinks.php?file=rsc-techn Reading Strategies - http://www.aspiringminds.in/referenceLinks.php?file=rsc-strategy

SECTION II: SUGGESTED TIME SCHEDULE

Based on your performance, we have come up with a time schedule. By following this time schedule, you can ensure that you will continue to maintain your strong modules, while improve substantially in those that are lacking.

The pie chart below, tells you about how much time you should ideally be spending on different modules. Always remember, it is required to spend a fixed amount of time on all modules even though you might be strong in them. Perfection is said to come from continuous practice.

And for the modules in which you might be lagging a bit, there is always time for improvement. So just put your chin down and start working on them from today. It has to start somewhere, it has to start sometime. What better place than here, what better time than now?

We also provide you a time split for each section in the module. Based on your performance, we automatically adjust times so that you spend more time on weak sub-sections in a module and less in others. This is contrary to what students generally do! They keep doing questions which they are able to solve and do not attempt those which they find tough. To improve your weak areas, you just need to do the opposite. Spend more time preparing for weak areas, even if it takes more time to learn and practice it.

We hope that your performance analysis has helped you understand your strengths and weaknesses. Let us now understand what your next steps should be.

Chapter VII. NEXT STEP

Your AMCAT experience is still not over!

Assessment is a continuous process which does not end with just an evaluation. In fact this is just the beginning. You need to work hard to succeed in tests and interviews of companies and finally do wonders at the job.

During the next three weeks, you will be automatically enrolled in the AMCAT Job-Readiness Capsule to help you get closer to your dream company interview. We will interact with you on a regular basis via emails to guide you through the capsule and check your progress. We will send you SMSes with helpful tips, guidance and employability updates for the next 3 months. Make sure you not only read these SMSes, but also do the things they recommend. We will also guide you in making your resume and help you perform best at an interview. Make sure you regularly log into your myamcat.com account to make maximum use of these resources and tips.

Also, to make sure you receive the best job opportunities matching your profile, you need to keep your profile at myamcat.com upto date with your most recent information and contact details. Do not compromise here, lest you miss a desired interview opportunity!

We need your feedback

Throughout this report, we have provided you with feedback. We also look for your feedback!

It is our endeavor to continuously improve ourselves so that the user has a great test experience. Please contact us in case you have any feedback about the test or the test experience in general. Your valuable comments will help us in fixing the glitches, if any, in our system.

In case of any query, feedback or suggestion please log in to your myAMCAT account and fill up the form at www.myamcat.com/need-help.

Words for life

A young man asked Socrates the secret to success. Socrates told the young man to meet him near the river the next morning. They met. Socrates asked the young man to walk with him toward the river. When the water got up to their neck, Socrates took the young man by surprise and ducked him into the water. The boy struggled to get out but Socrates was strong and kept him there until the boy started turning blue. Socrates pulled his head out of the water and the first thing the young man did was to gasp and take a deep breath of air. Socrates asked, 'What did you want the most when you were there?' The boy replied, 'Air.' Socrates said, 'That is the secret to success. When you want success as badly as you wanted the air, then you will get it.' There is no other secret.

A burning desire is the starting point of all accomplishment.

Just like a small fire cannot give much heat, a weak desire cannot produce great results...
